*All components meet the highest standards and these are constructed onto a substantial frame. There is a wide selection of fabric textures and colourway's available. Structural and load bearing rails are selected and seasoned non-tropical hardwood to ensure strength and secure fastening. The seats are sprung with sinuous wire fully braced with Silent Hartco wire for added stability, strength, and comfort. The Seat Cushions are filled with a foam core with foam topper, while the Back Cushions are filled with hollow fibre. This model comes in a wide range of colours and textures and is also available with recliner chair options.*
